

Report Lab 2

No.	Name	ID
1	Nguyen Dinh Khanh Ngan	ITCSIU22236
2	Phan Tran Thanh Huy	ITCSIU22056
3	Nguyen Huu Thuy	ITCSIU22141

1. Functional and Non-functional requirements

Req.ID	Requirement Name	Detailed Description	Type
001	Register an Account	If the player doesn't have an account, they must be prompted to register before using system service.	Functional requirement
002	Compare Between Games	Players can compare two or more games based on various criteria (e.g., genre, ratings, reviews) to choose the best one or the system will recommend game based on some ratings	Functional Requirement
003	Create Game Events	Players can create events for specific games, including details like date, time, and participants.	Functional Requirement
004	Manage User Profiles	Players can manage their profiles, including updating personal information and game preferences.	Functional Requirement
005	Live Chat	An online chat on the site where customers could instantly receive answers to their questions	Functional Requirement
006	Usability Requirements	The interface must be easy to learn and navigate. Buttons, headings, and help/error messages should be simple, understandable, and accessible.	Non-functional Requirement

007	Performance	The system should be able to handle a specific number of simultaneous users (e.g., 1000 users) without performance degradation.	Non-functional Requirement
008	Security Requirement	All communications between the system's data server and users must be encrypted to ensure the user's data safety.	Non-functional Requirement

2. Risk Register

Risk ID	Risk Category	Risk Title	Affect	Probability	Impact	Risk response plan
001	HR	A need for skilled developers, designers, or project managers.	This can slow down the progress of the project, produce unreliable result	Medium	Low	Check and train team members to keep up with the process. Increase abilities for all members.
002	Requirements	Requirements are not clearly defined, or too difficult to handle.	It affects the system and expectation of consumers.	High	High	Have a meeting with client and project manager to define the requirements clearly.
003	Organization and Management	Poor project planning and unclear project goals.	This can delay the progress, making it become low quality.	Medium	High	Redraw all the plans including subtasks wisely. Have a meeting with develop

						team daily to keep track of progress.
004	Cost	Project is running over the budget due to facilities	The project has to be stopped if the team runs out of the budget.	Medium	Medium	Use historical data from similar projects to estimate costs more accurately. Engage with all relevant clients to ensure the scope is clear and avoid underestimating the time and resources needed for key tasks
005	Performance	Poor performance, such as slow response times during peak periods	It affects the product, making it low quality.	Medium	High	Perform stress testing and load testing to simulate high-traffic scenarios and identify bottlenecks before the system goes live.

3. Resources Requirement

3.1 Hardware Resource

Items	Quantity	Description	Purpose	Price	Total Cost	Date needed
Dell PowerEdge R740	2	Rack server for virtualization	Game Hosting	\$2,500	\$5,000	October 16, 2024
Lenovo System x3500 M5	1	High-performance server	Data Server	\$3,000	\$3,000	October 16, 2024
Cisco Catalyst 9200	1	Network switch	Networking	\$1,200	\$1,200	October 16, 2024
APC Smart-UPS 1500VA	1	Uninterruptible Power Supply	Power backup	\$500	\$500	October 30, 2024
HP ProLiant DL380 Gen10	1	Backup server	Data backup	\$3,500	\$3,500	October 30, 2024
Total Cost: \$13,200						

3.2 Software Resource

Application	Quantity	Description	Purpose	Price	Total Cost	Date Needed
Windows Server 2022	1	Server operating system	Host the application and services	\$1,000	\$1,000	October 16, 2024
SQL Server 2022	1	Database management system	Store and manage game and user data	\$2,000	\$2,000	October 16, 2024
Docker	1	Containerization platform	Deploy and manage applications	Free	Free	October 20, 2024

Visual Studio 2022	1	Development environment	Develop the game management system	Free	Free	October 16, 2024
Apache Kafka	1	Stream processing platform	Manage real-time data streams	\$500	\$500	October 26, 2024
Unity or Unreal Engine	1	Game development platform	Develop and manage game applications	\$1,500	\$1,500	October 18, 2024
Microsoft Office 2021	10	Office productivity suite	Document creation and management	\$250	\$2,500	October 16, 2024
Total Cost: \$7,500						

3.3 Human Resource

Name	Name of Organization	Project Role	Required Skills	Phone	Email	Salary/ Month
Nguyen Huu Thuy	Finantasy	Project Manager	Strong leadership skills. Effective communication skills. Manage schedule wisely. Predict and handle risks.	0938109508	nguyenthuy136@gmail.com	\$500.23

Nguyen Dinh Khanh Ngan	TechNova Solutions	Business Analyst	Deep Technical Knowledge. High Analytical Thinking and Problem Solving. Critical Thinking and Decision Making	0393264587	khanhngan1491@gmail.com	\$400.16
Total Cost: \$900.39
